

## HP Small/Medium Business Solutions

i n v e n t

### Integrated IT Infrastructure for small-sized business

As a Small business owner, in today's highly competitive environment, you need cost-effective, reliable, efficient, and expandable IT solutions. Your success depends on a resilient IT system allowing you to deliver the right product or service to your customers efficiently. We at Saudi Fanks leverage our experience in the application of proven technologies and processes to provide relevant solutions to you and your staff. We work with you to ensure your IT solutions positively impact your bottom line.

Saudi Fanks offers you a strong IT foundation that provides peace of mind by:

- Securing your Line-of-Business Application Platform
- Providing a flexible communication and collaboration infrastructure
- Helping you manage and promote your business online and thus acquire new customers in a more cost-effective way
- Effectively addressing all of your hardware needs

An integrated IT system will facilitate your ability to keep a close eye on what is most important to you, the bottom-line. You will be able to address today's challenges, reduce costs, improve customer service and cash flow. These key benefits enable you to continue to grow steadily and differentiate yourself in today's difficult market.

### Integrated IT Infrastructure for medium-sized business

As a Medium business owner, you require strategic integration of IT within your organization for expansion. One of the vital components of a successful growing business is the ability to meet the manageability, reliability and interoperability requirements that empower your organization. These systems greatly enhance the capabilities of your company and employees to collaboratively share information both internally and externally.

Our consultants will help you leverage Microsoft knowledge and align current IT investments to your business objectives. By improving your IT infrastructure, your company will benefit from:

- Distribution of key information in a timely manner
- Access to centralized views of all service requests and calendars, as well as customer history and contact information
- Streamlining work-flow processes and reducing your expenses
- Ability to hold virtual meetings with clients
- Providing your team players with constant access to critical business information with full-featured mobile applications

An integrated IT system will cultivate long-term decision-making. You will be able to address today's challenges, reduce costs, and improve customer service and cash flow. These key benefits enable your company to improve internal efficiency through processes and expanding your marketing reach.
